

Building Blocks

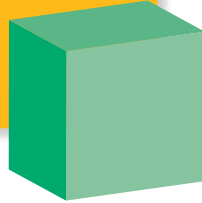

Play together 1:

Sit with your child and the bricks

Ask - what shape is that brick?

Tell them - it's a square!
It's a rectangle!

Ask them to point and
repeat the shape name

Play together 2:

Ask your child to
build a tall tower
with the bricks.

See how high they
can make it.

Now let them
knock it down!

Play together 3:

Now ask your child to
make a tall tower using
bricks and Play-Doh.

Show how to add Play-Doh
in-between the bricks to
make the tower stronger.

Was this tower taller?
Was it stronger?

Have fun knocking down
these towers again and again!
