

# Leaf rubbings

Go outside and find a nice dry leaf.

Put it under a piece of paper.

Take out a crayon and use the side of your crayon to colour over the leaf.

You will be left with a lovely leaf rubbing.

Move the leaf and try again with a different colour to make a new picture.

## Try this:

Use different leaves to make your picture.

Make a tree rubbing - put your paper over a tree trunk and use your crayons again.

Use other things in your house - keys, coins, keyholes - see what works for you!
