

Make believe bubbles

Close your eyes.
Put your mouth in a little
O shape and blow softly...
blow some more.

Pretended you are
blowing lots of little
bubbles.

Jump up and try to pop
all of those bubbles!

Now can you try to blow
a very BIG bubble.

Take a big breath in and blow
for a long time to get that
bubble as big as you can.

Now imagine getting inside
that bubble and floating up
into the sky.

Can you see the trees and
houses below you getting
smaller?

Where would you fly to in
your magic big bubble?

Would you fly over the sea?

Go somewhere warm or
somewhere cold?

Now your bubble takes you
back to your house
