

BARK RUBBINGS

4 Find a different tree and do the same thing. Look at the different patterns, lines and textures.

5 Use different colour crayons for different effects!

3 Using a wax crayon on its side (peel the paper off first), rub the crayon across the paper and the patterns of the bark will appear like magic.

1 Take some paper and wax crayons outside with you.

2 Find a tree and hold a piece of paper against the trunk.

NOW TRY:
Use your magnifying glass to look close up at the bark.
Can you see any creatures or bugs?
What else is there?
Now draw these onto your bark rubbing pictures!
