

# MIRROR IMAGE NATURE DRAWING

1  
First, collect  
leaves and  
flowers that  
you like.

2  
Think about  
their colours,  
textures and  
patterns.

3  
Now, use  
your scissors  
and cut them  
in half.

4  
Next, glue  
one half on  
your paper.

5  
Use your  
pencils and  
paints to draw  
in the other  
half!

6  
How  
do they  
look?!

**NOW TRY:**

Colour in the other  
half with amazing  
colours and patterns!

**Invent a whole  
new plant when you  
draw the other half!**

Fill in the other half with  
words about what you love  
most about nature.
