

Star gazing

3. Find a good place to look at the sky – you can sit or lie down.

2. When it starts to get dark, dress warmly and go outside.

**4. Now...
LOOK UP!**

1. Choose a clear night – check there are no clouds.

5. Your eyes will get used to the darkness, and you'll see the STARS!

Now have a good look around.

**It's like a dot-to-dot!
Join the stars to make a shape or picture.**

Can you connect the stars to make your initials?

An animal?

What else?

Are the stars the same colour, shape and brightness?

If you see a shooting star, remember to make a wish!

Now go inside and get warm!
