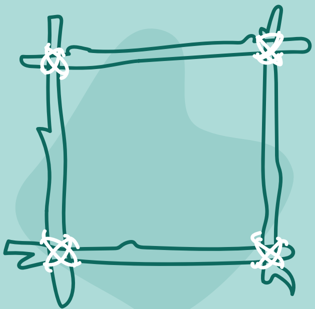
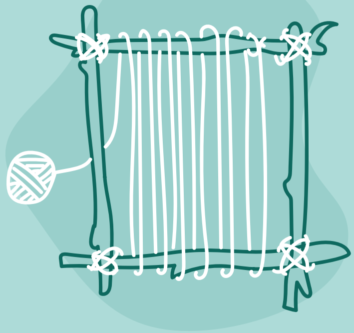
Nature weaving

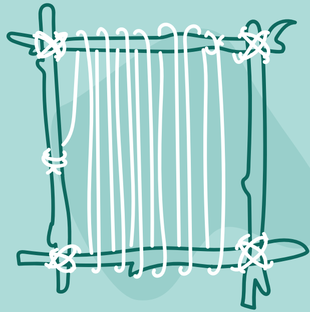
You'll need:
- 4 short sticks and wool
- Natural objects that you can weave like thin twigs, grass, moss, feathers, flowers...
- And your paper and pens



Step 1
Arrange the 4 sticks in a square and use your wool to tie them at each corner.



Step 2
Now wind the wool in rows from the top to the bottom of your square – like this.



Step 3
Now tie your wool in a tight knot around one of the twigs, to keep everything together! Cut the wool.

Now, let's get weaving!
Going from side to side, thread your grass, feathers and other natural objects in and out of the wool, so that they stay in place.

Now cut your paper into narrow strips and write messages or make colourful designs to weave in.

What else can you weave in?

Keep weaving until you are happy with your design.

You can hang it on your wall!
