

Touch and Draw!

The objects around you feel different when you touch them.

Some are hard, some are soft.

Some are smooth and some are bumpy.

Look at the word in each box, and draw an object that feels like that.

Your Favourite Things!

Now think of your favourite things,
and draw one of them in each box.

If you want, you can write a word to describe
what your favourite thing feels like when you touch it.
